

On line giving to Kirby Baptist Church:

In an age of debit cards and internet shopping, we have become a culture that is seldom equipped to give through traditional methods (writing a check or carrying cash). In an effort to provide you a means to give to the ministries of your church in a convenient, contemporary way – while not incurring a large cost to Kirby (ie. processing electronic contributions). Using your bank’s current “Bill Pay” feature is the most obvious solution we have found.

Here’s how to use this feature in giving to KBC.

On your bank’s Web site go to the “Bill Pay” area of the site. There should be a section that will allow you to setup a new payee. Go to that area. You will set up Kirby Baptist Church as a new company.

In the Company Name section type: ***Kirby Baptist Church***

Because Kirby Baptist Church is not a recognized institution, you will be asked for some additional information:

Account Number (or “*identifying information*”): ***Place your name in this box***

Mailing Address: 5114 Old Seguin RD
Kirby, TX 78219

Select the amount you would like to give (Percentage gift or *designated offering), and finalize the transaction. It’s just that simple.

**Most banks will allow you to “Add a Memo” to your Bill Pay Transaction. When giving to a designated emphasis you should “memo” the gift to reflect the designation. If the option is not available, simply email our treasurer at treasurer@kirbybaptist.org so the gift can be applied as you desire.*
